Hand Out to a Hand Up

Four12 11 February 2020

It has been just under a year since we first started reaching out and into Zimbabwe with a particular call to action sent out to us all as Partners. It is hard to consider that Zimbabwe has been classified as a third world country. They have no electrical power, no industry, no employment and no food. Currently, the UN has not agreed to assist because of the massive scale of bureaucratic corruption and theft.

6 Relief Visits

From March 2019 until now (February 2020), we have seen R294,000 worth of relief given through us as Partners, with 6 relief visits going into Zimbabwe over this time.

Sustainable Farming Hand Up

Not only was food purchased and distributed over this time, but seed and fertilizer was given with the aim of empowering our Partners to be able to sow into a sustainable future. This hand-out was always intended to become a hand up in sustainable farming, with 10 percent of the harvest stored for the next season. We will continue to pray for and support our partnering churches in Zimbabwe as the need arises.

Thank You

We want to thank everyone for giving so generously to the Zimbabwe Relief Fund in such a short time. The nation is indeed in a desperate state, and without the help of those of you partnering together with us, Zimbabwe will continue to experience malnutrition and even

starvation in some areas. BUT GOD! What a privilege to partner with these precious saints and see God come through for them when they need it most.

We encourage you to watch these clips below, filmed by William Marais this January during his recent time with our Partners – our 6th relief delivery given to our Zimbabwe Partners:
