Limitations Removed

Clarence Rule 13 April 2022

Something very special has happened to me! A year ago, on 1 June 2020, I had a stroke. God had healed me to a certain degree where I could preach and walk again, but I walked with limitations and continued to suffer from a frozen shoulder. During worship at the Healing Equip on Friday evening, I noticed that both my hands were up in the air, equally extended – something I have not been able to do since the stroke. My physiotherapist, who has worked on my shoulder for over a year, was blown away and has verified this incredible healing. We can attest that God has indeed healed me!
