What God Did

Four12 29 September 2021

The Healing Equip took place on the 24th and 25th of September and was an incredible time of impartation, releasing faith and seeing God move amongst us. Here are just a few powerful personal testimonies of what God did in us during this time.

Limitations Removed

Something very special has happened to me! A year ago, on 1 June 2020, I had a stroke. God had healed me to a certain degree where I could preach and walk again, but I walked with limitations and continued to suffer from a frozen shoulder. During worship at the Healing Equip on Friday evening, I noticed that both my hands were up in the air equally extended – something I have not been able to do since the stroke. My physiotherapist, who has worked on my shoulder for over a year, was blown away and has verified this incredible healing; we can attest that God has indeed healed me!

A God Who Heals

We were sitting at our Four12 equipping time on Faith and Healing in awe of God. This photo is of my six-year-old daughter upside down on the jungle gym. The profound thing is that she has been struggling with pain for eight days. The two rooms she had been in for the majority of the time was the bedroom and bathroom. She had been sick, and man, had we been praying,

meditating, and even that morning, she was at the Emergency Room crying and shouting because of pain. My thoughts were even, “how can I as Daddy leave for the equipping time at 12 if my daughter is in such pain?” Also, realising this could have been an attack from the enemy to keep me away from being equipped. How do we make a call like this? What are the answers, and when will healing come to MY fragile daughter? Eight days, surely she should’ve been healed from a “tummy” bug already, surely the medication should’ve taken the pain away, surely the lethargic emotions should have been better by now. Surely God of creation would not do this to his 6-year-old child? Says who? God is God, and I am not. He decides what He wants to do. I can trust Him because she belongs to Him before she is mine. She is healed.

No More Suffering
For a while, I have struggled with unforgiveness and rejection and felt a heaviness on my chest, accompanied by coughing. I had started pulling back from church because of this. I watched the Healing Equip from home on Friday and responded to one of the calls for prayer. After the prayer, I felt a little bit light but did not take much note, but the next day noticed my chest felt much lighter, and I knew the Lord had delivered me. My relationship with the person I had taken offence with is also restored. Praise God that He has healed me over this weekend.

A Total Heart & Mind-Shift
I live with an auto-immune disease, and along with it, I struggle with depression and anxiety. I knew God was going to do something in me during the Healing Equip. When people first prayed for me, I did not feel much, but then the Holy Spirit came and started working in me and surrounding me. He began working in my mind and heart, and there was such a release in certain of my thought patterns and insecurities. It was like a little straw was put in my head, and God slurped it out like an iced coffee. I felt such inner peace and had such a revelation of God’s love and that He is in control and has my future in the palm of His hands. It became more than knowledge but a total shift in my mind and heart.

Set Free
I needed prayer and healing from my obsessive eating, and that I felt very convicted for looking for comfort in food and not in the Lord who had already saved me from so much darkness. As they prayed and I started repenting of my sins, the Lord began to break and release so much shame, rejection and bondage over me. I felt such a breaking open in my spirit, and such freedom began to flow over me. I have never before felt such love and joy, and freedom. I have absolutely no doubt that I am now delivered and set free from that obsessive eating and so much more. Afterwards, I asked them if they would pray for the pain in my knees, ankles and feet. So they prayed for me, but nothing much changed. When we were about done, I asked

them if I could pray for them. So I started praying, thanking the Lord for them and sending them to me, and as I was praying, the pain in my feet and knees just started to disappear. The Lord is so full of mercy. Since Saturday, my eating has been under control without any effort from my side, and the pain is still gone.

Activation of the Gift of Healing
Roughly three years ago, I felt God tell me he wanted to give me the gift of healing, and I saw in the Spirit my hands lit on fire. Since getting saved seven years ago, I've been struggling with my health, which made the promise of the gift of healing seem impossible, and I wrestled with God about this. On Friday evening, in worship, I felt God activate my dormant gift of healing, and I received the gift of faith for healing and other circumstances that the church is praying and trusting for. Thank Jesus for His loving heart to heal me, a sick and broken clay vessel. Fully restored and ready to be poured out for His glory.

Tracy-Anne Sikenjana – Joshua Generation Church, City Bowl
We trust your faith has been built by these beautiful testimonies. To those who attended or listened online, and have not yet received healing (or been fully healed as you would like to be), remember our God heals – not always immediately and in this life – but in His time and for His purposes. So not to lose hope if you have not yet received your miracle during the Healing Equip time. Our God remains a Good Father and works for the good of those that love Him (Romans 8:28).

All the teachings from the Healing Equip are available for you to watch online. If you have any testimonies to share from this time, please feel free to email them to info@four12global.com. We also encourage you to get any testimonies of healing verified by your medical provider.
